Overview

The Centre for Executive Education (CEE) at Mahindra University, creates and conducts educational programmes for working Executives, which are designed to provide timely and relevant knowledge, insights and perspectives, that help them progress in their current and future roles in organizations. By enhancing performance of executives, these programmes are aimed to positively impact the organisations that they work for.

Executive Education Programmes at Mahindra University span across multiple management discipline, engineering & data science, and law, for different seniority levels, in various national and international geographical locations.

CEE's mission is to be a hub for engaging beneficial interactions between business leaders and the academia. The centre works with some of the finest faculty in India and from leading Global Business Schools. Participants will have opportunities to learn from the innovative research and consulting experience of the faculty, wide experience of the peer group of learners, and from Industry practitioners who bring in strong domain knowledge.

Open Enrolment Programmes

Our Open Enrolment Programmes help executives keep updated with the latest trends, developments and emerging opportunities in the business environment. Being futuristic and global in scope, Open Programmes equip working executives with tools and knowledge, to address contemporary business problems in real time.

These programmes are designed & delivered by outstanding faculty who have been handpicked for their research excellence, subject-matter expertise by way of extensive consulting, and teaching acumen. The faculty sessions are complemented by industry domain experts, who draw from their own experiences in helping participants develop new insights that are most relevant to them.

Our Value Proposition

- ✓ Large Pool of world-class executive education faculty, across multiple disciplines, within the University, and from various parts of the Globe
- ✓ Team with extensive experience in designing Executive Education Programmes for Senior Executives
- ✓ Creation and Delivery of programmes, with best-in-class teaching methodologies, including Simulations & Experiential Learning

Custom Designed Programmes

Customized Executive Education Programmes are designed to address unique business challenges & issues, and development/ learning needs of an organization. Based on a deep understanding of business context, people context and cultural context, the Programme Design, Contents and Teaching Methodologies are aligned to deliver pre-defined learning outcomes, for the organization and the programme participants.

Our Value Proposition

- ✓ In-depth diagnosis of Learning Needs of participating executives from the organization
 - Done through engaging extensively with the Top Leaders from the organisation, potential participants & their reporting managers.
- ✓ Co-creation of Customized Content, with close involvement of clients in defining programme architecture, contents and learning outcomes
- ✓ Strong focus on aligning education with business impact for our clients
- ✓ Programme Delivery is done through providing a mix of conceptual frame works & tools. Our Pedagogical Methodologies comprise case studies, assignments, group exercises, role-plays, project work, business simulation games, practitioner/expert/industry connects, to optimize the learning process, while leveraging the overall capability of the University, for impactful delivery

To create Business Impact, participants are encouraged to take up Action Learning Projects, in consultation with the Senior Leaders of the organization, to apply the Programme Learnings in their roles, under the guidance of the MU faculty.

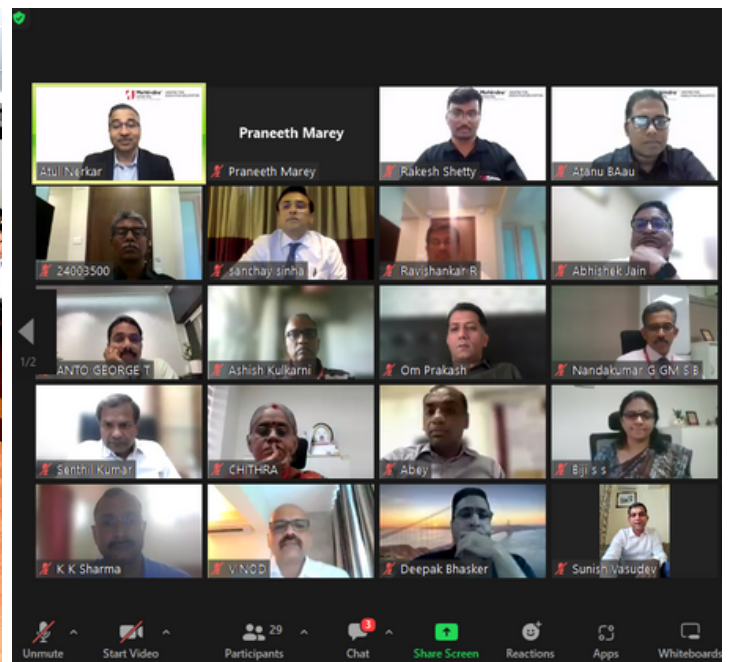

Certificate Programmes

Certificate Programmes at Mahindra University, aim to develop deep knowledge and skills in specific areas for working professionals, for furthering their career prospects.

These programmes vary in duration between 3 to 6 months, with multiple modules which are phased out to enable working professionals to pursue the learnings, with minimum disruption to their current job role performance.

The programmes involve intensive engagements at regular intervals, with faculty, with industry practitioners and peer groups.

Included in the programme curriculum are several areas of application of concepts, action learning projects, experiential learning through simulations & workshops.

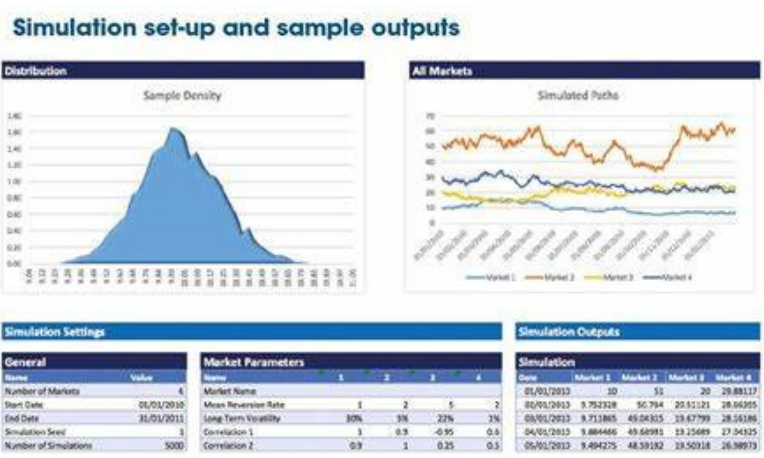

Simulation based learning Programmes

These programmes are built around comprehensive simulations, allowing executives to learn new concepts in a very tangible way. Simulations form a critical bridge between academia and the business world. Simulations combine applications of management theory, team work, leadership and emotions that lead to realistic learning for participating executives.

Simulations approximate real-life situations, and participants have to build in key capabilities and construct the learning themselves. Exposing executives to such real-life business situations helps them to develop a solution approach to complex business situations.

Simulations are very collaborative and competitive. Participants are under pressure to make decisions under time constraints with incomplete information, as happens in businesses.

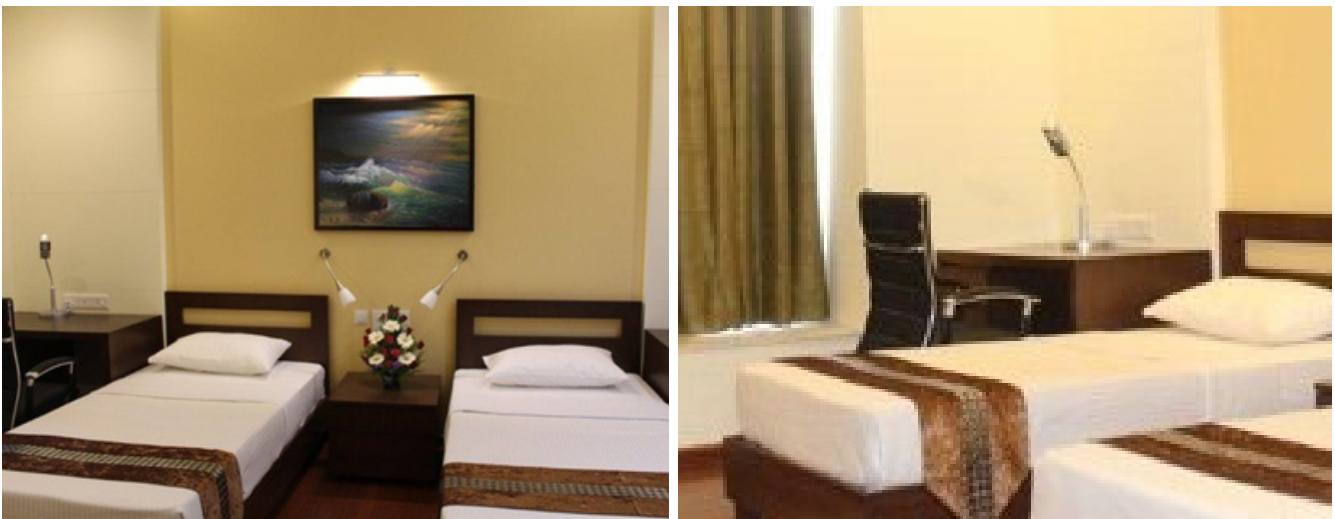

Simulation-based programmes can be delivered across all disciplines, Our such as Leadership, Strategy Implementation, Entrepreneurship, and Management Functions such as Marketing, Finance and Operations.
